Hearing Tip of the Month

Did you know that if you take the sticker off of your hearing aid battery and let it sit out for 2-5 minutes before inserting it into your hearing aid, it should prolong the battery life? Hearing aid batteries are oxygen activated and become fully charged after the sticker is removed.

The Face Time that you deserve!

We offer clean and check hours each day to keep your hearing instruments working to their full potential. These appointments are specifically for cleaning only.

If you need your hearing aids adjusted we would love to <u>schedule</u> you for that in another appointment so that we are able to dedicate time to making sure your needs are met appropriately. During adjustment appointments, our providers have time to assess the overall situation and problem solve appropriately.

Please call ahead so that we can provide the scheduled face time that you deserve!

Patient of the Month - Mr. Floyd Epperson

We would like to recognize our Patient of the Month - Mr. Floyd Epperson.

Floyd has been a patient for many years. He brings joy to our waiting room as he often stops by to bring us snowflake ornaments and poems to brighten our day. He once said of our team, "I love Cornerstone Audiology because they

treat me like I'm somebody" That is one of the best compliments we've ever received.

Congrats to Floyd who just returned from the Honor Flight in Washington DC. Thank you for your service and thank you for all you do to make our days bright at Cornerstone. We are blessed to have you as a patient!

Deanna's Recipe for Chicken Ole!
